Dear sung-kyu Cho,

The revised user manual you forwarded today was missing part of the FCC address. Please send a revised user manual showing the entire address:

Experimental Licensing Branch, OET
Federal Communications Commission
445 12th Street, SW
Washington, DC 20554

ATTN: RFID Registration

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the sender.

Dear Tom,

These are my answers about your questions.

I have reviewed the referenced application and have the following questions:

1. Please confirm you do not want to include the operational description in your confidentiality request

Asiana IDT doesn't want to include the operational description in confidentiality request.

2. The grantee address on the Form 731 application form is different from that shown on the FCC website. Please comment

I searched FCC website, there are two FRN numbers about Asiana IDT.(0016580433, 0016936031)

FRN 0016936031 address is same with the grantee address.

3. Measured TX on time is 5.4 msec. The transmitter timing diagram shows TX on time of 3.4 msec. Which is typical?

Typical transmit time is 3.4 msec according protocol. But 5.4 msec is measured time including uncertainty.

4. Please submit documentation showing how the grantee will comply with the requirements of 15.240(f)

Attached revised user's manual. Put the notice about 'The user of the device shall be responsible for submitting updated information in the event the operating location or other information changes after initial registration' on the last page.

The tag install location isn't decided from now, so the grantee can't submit location information to OET now.

After the install location is decided, they will submit location information to OET.

Thankyou.

Best Regards,
sung-kyu Cho
